

Zone of Auto-Gestionaries in Geneva (ZAGG)

Zone Autogérée à Genève (ZAAGE)

We are a regional anti-authoritarian, auto-gestionary and anti-capitalist assembly of people.

Our objective is to federate specific, daily and local or global battles, more than to symbolically fight against the G8 summit in Evian.

Our goal is not to create a perfect world but to live another type of society, confronting diverse point of views and other organisational methods of living.

A VILLAGE is thus being organised during the week before the G8 meetings, which would be sustained by anybody's activity. The village would allow its participants to share their thoughts, hold discussions and try out another way of living.

We therefore invite groups as well as anyone, who identifies him/herself with this initiative, to join and build such a VILLAGE.

The VILLAGE will take place in Geneva, end of May
before the start of the meeting of G8 in Evian,

**from Friday, 23th May to
Friday 30th May 2003**

In solidarity with the VAAAG in Annemasse and the C'village in Lausanne.
